

Product configuration and live data
at your fingertips

The new **SpeedLink OTG app** is now available

Our robust **SpeedLink software** is now available **FREE** in a handy app, providing simple process instrumentation on your mobile or tablet, via an 'on-the-go' cable and a standard USB cable.

DOWNLOAD TODAY, at
www.status.co.uk, or via Google Play

Remember, configuration can be carried out using our free **SpeedLink** software, which can be downloaded onto any Windows-compatible tablet, laptop or PC.

You can keep up to date with our latest hardware and software developments on our website, or on LinkedIn.

'We have an app for that!'
