

# Thermocouple Connector Accessories Guide

|  |                                                                        |                                                                                                               |                                                                                                                                  |
|--|------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
|  | <p><b>Panels for Fascia Sockets (Type FF)</b></p>                      | <p>Various sizes are available</p>                                                                            | <p>Panels for Miniature &amp; Standard Fascia Sockets (Type FF) - Flat aluminium panel. 26 varieties available</p>               |
|  | <p><b>Panels for Fascia Sockets (Type SSPF)</b></p>                    | <p>Various sizes are available</p>                                                                            | <p>Panels for Miniature &amp; Standard Sockets with Stainless Steel Fascia Bracket - (type SSPF) 2 Way, 4 Way, 6 Way, 12 Way</p> |
|  | <p><b>Locking Brackets for Miniature &amp; Standard Connectors</b></p> | <p>Miniature - XE-1865-001<br/>Standard - XE-1866-001</p>                                                     | <p>Locking Brackets in both miniature and standard sizes for use with thermocouple connectors</p>                                |
|  | <p><b>Panel Blanking Sockets</b></p>                                   | <p>Miniature - XE-1776-001<br/>Standard - XE-1896-001</p>                                                     | <p>Panel Blanking Sockets for miniature or standard thermocouple connectors. Used for blanking off unused panel cut-outs</p>     |
|  | <p><b>Strain Relief Grommet</b></p>                                    | <p>Miniature - XE-1882-001</p>                                                                                | <p>Strain Relief Grommet for Miniature Connectors</p>                                                                            |
|  | <p><b>Thermocouple Cable Clamps</b></p>                                | <p>Internal Duplex - XE-1916-001<br/>External Standard - XE-1880-001<br/>External Miniature - XE-1760-001</p> | <p>Thermocouple Cable Clamps - Double sided for miniature and standard connectors</p>                                            |
|  | <p><b>Crimp on Brass Probe Supports</b></p>                            | <p>Various sizes are available</p>                                                                            | <p>Crimp on Brass Probe Support for Miniature or Standard Thermocouple Connectors</p>                                            |
|  | <p><b>Compression Cable Clamp - Standard</b></p>                       | <p>Standard - XE-1888-001</p>                                                                                 | <p>Only suitable for Standard Thermocouple Connectors</p>                                                                        |

|                                                                                     |                                                       |                                                                                                    |                                                                                         |
|-------------------------------------------------------------------------------------|-------------------------------------------------------|----------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------|
|    | <p><b>Braze on Brass Probe Support - Standard</b></p> | <p>1.5mm - XE-1918-001<br/>2.0mm - XE-1919-001<br/>3.0mm - XE-1920-001<br/>4.5mm - XE-1921-001</p> | <p>For Standard Connectors. Available in various sizes</p>                              |
|    | <p><b>Braze on Probe Support - Duplex</b></p>         | <p>3.0mm - XE-1924-001<br/>4.5mm - XE-1924-001<br/>6.0mm - XE-1926-001</p>                         | <p>Support for Duplex Connectors in various sizes</p>                                   |
|    | <p><b>Tube Adaptors Duplex</b></p>                    | <p>3.0mm - XE-1928-001<br/>4.5mm - XE-1929-001<br/>6.0mm - XE-1930-001</p>                         | <p>Tube Adaptors for Duplex Connectors. Available in various sizes</p>                  |
|    | <p><b>Cable Strain Relief Washers</b></p>             | <p>Miniature - XE-1885-001<br/>Standard - XE-1886-001</p>                                          | <p>Available in Miniature or Standard size. Packs of 100</p>                            |
|    | <p><b>Spare Nylon Clip</b></p>                        | <p>Miniature - XE-1860-001<br/>Standard - XE-1861-001</p>                                          | <p>For Fascia Sockets Available for Miniature and Standard Connectors</p>               |
|  | <p><b>Rubber Boot</b></p>                             | <p>Miniature - XE-1874-001<br/>Standard - XE-1875-001</p>                                          | <p>Rubber Boots available for Miniature and Standard Connectors</p>                     |
|  | <p><b>Spare Stainless Steel Clip</b></p>              | <p>Miniature - XE-1863-001<br/>Standard - XE-1864-001</p>                                          | <p>Spare Brackets (Stainless Steel) Available for Miniature and Standard Connectors</p> |
|  | <p><b>Cable Tidy</b></p>                              | <p>Miniature - XE-1863-001</p>                                                                     | <p>Cable Tidy for Miniature Connectors</p>                                              |
