Stainless Steel Compression Fittings - Parallel Thread (BSPP)

Labfacility are the UK's leading manufacturer of Temperature Sensors, Thermocouple Connectors and associated Temperature Instrumentation and stockings of Thermocouple Cables. The Company has been trading since 1971 and is ISO9001 accredited.

To suit a wide range of mineral insulated & other probe type sensors offered by Labfacility.

Stainless steel compression fittings with parallel BSPP (British Standard Pipe Parallel) threads are essential in various industries for connecting pipes and tubes.

Known for their corrosion resistance, durability, and strength, these fittings are ideal for harsh environments, including food, beverage, pharmaceutical, and chemical industries.

Proper installation and regular maintenance are key to maintaining their effective performance over time.

Specifications

Specifications

General Description	Male in-line stainless steel compression type with nut & olive
Material	BSP Parallel - Stainless Steel
Thread	1/8"BSP, 1/4"BSP, 1/2"BSP, 3/4"BSP & 3/8"BSP Threads available
Probe Diameter	Suitable for both metric & imperial probe diameters from 1.0mm
