

## GM640 Grain Moisture Meter

### General Description

With this Tester, the moisture and temperature of the grains (measurable grains include: wheat, paddy, rice, corn) can be rapidly and exactly measured.

<b>Type</b>	Grain Moisture Meter
<b>Accuracy</b>	Moisture $\pm$ (1% Rh = 0.5), temperature $\pm$ 2.5°C ( $\pm$ 5°F)
<b>Resolution</b>	0.5% moisture, temperature 0-85% Rh
<b>Dimensions</b>	Meter: 72 * 35 * 145mm. Probe: 415 * 36 * 36mm
<b>Max. Temperature</b>	60°C
<b>Min. Temperature</b>	-10°C
<b>Operating Humidity</b>	0.1-85% Rh
<b>Input / Ranges</b>	5% -30% moisture, temperature -10°C-60°C
<b>Operating Temperature</b>	0°C-40°C

**Weight** Meter: 190.6g,

Probe: 208.3g

**Power Supply** Power supplied by a 6F22 9V battery with auto reminder while low battery
