

0.25mm Diameter Fast Response Mineral Insulated Thermocouple with Threaded Pot & PFA IEC Tails - Type K - Grounded Junction - 100mm

Labfacility are the UK's leading manufacturer of Temperature Sensors, Thermocouple Connectors and associated Temperature Instrumentation and stockings of Thermocouple Cables. The Company has been trading since 1971 and is ISO9001 accredited.

Need Your Temperature Sensor calibrated?

Traceable to ISO17025 (UKAS) calibration standards, Labfacility offer a choice of a 3 or 5 point traceable calibration using our in-house calibration facility, you can select any temperature points between -10°C & +200°C.

Please be aware that if you add a calibration option to your order you will be contacted regarding delivery information.

Specifications

XE-0812-001
Highly flexible, sheath can be bent/formed to suit many applications and processes
Type K IEC MD STYLE probes 0.25mm
Single element, grounded junction
100mm
Stainless steel 316 sheath
M8 x 1.0mm fine pitch threaded pot seal (200°C)
100mm
PFA insulated twin twisted IEC
7/0.2mm
Sensor range -40 to +260°C
A 1%+ Length Tolerance applies
