|                              |                                                          |
|------------------------------|----------------------------------------------------------|
| <b>Product Code</b>          | XE-0692-001                                              |
| <b>General Description</b>   | Thermocouple mounted on a stainless steel shim           |
| <b>Thermocouple Type</b>     | K                                                        |
| <b>Thermocouple Junction</b> | Junction grounded at tip for fast response               |
| <b>Cable Length</b>          | 1M                                                       |
| <b>Cable Type</b>            | Glassfibre insulated lead with stainless steel overbraid |
| <b>Core / Strands</b>        | 7/0.2mm                                                  |
| <b>Termination Type</b>      | Bare Tails                                               |
| <b>Max. Temperature</b>      | 350°C                                                    |
| <b>Min. Temperature</b>      | -50°C                                                    |
| <b>Standards Met</b>         | ANSI MC96.1                                              |
| <b>Dimensions</b>            | 25x13mm shim (0.2mm thick)                               |
| <b>Series</b>                | Leaf Thermocouple                                        |
